Course Description	This elective provides an in-depth experience in diagnosis and management of acute and chronic urological problems. In addition, specialty areas such as renal transplantation and pediatric urology will be covered. The student will be responsible for initial work-ups, operating room, tutorial sessions, and will have didactic lectures from the house staff and full-time faculty. The elective will include a one week rotation at the West Los Angeles VA Medical Center, which will require that you get VA clearance. Ideally, the elective will also include a one week rotation at the Santa Monica-UCLA Medical Center, which will depend on the volume of students on service.
